“A spectacular waterfall in a mid of color full granite stone just 14 km from internationally famous destination Khajuraho. 30 meters deep canyon formed with pure crystalline granite in different colors like pink, green, misty white, and red to grey. The most fascinating thing about this place is that, there is dozens of small and big falls in regular stretches, some of them are seasonal having furious water flow during rainy season. The cascading waterfall crystalline pure water of Ken and colorful granite rocks creates a mesmerizing effect of nature.”

“Hinouta range is renowned for its vulture sighting point at the Dhundwa Seha during the monsoon, the major one being at the Dhundwa Seha. Coincidentally, this also happens to be the same location where the first litter of the trans located tigers was born. Elephant camp where trained elephants are stationed for patrolling purposes is also located nearby. The accommodation facilities provided at the gate by the forest department boasts of providing the best experience at the most reasonable price. Some of these accommodations were designed innovatively like tents which will enthrall adults and kids alike with their unique ambiance.”

“Most of the Satpura ranges are heavily forested, these forest enclaves proved habitat to several at risk and endangered species. Including the tiger, this trek is after the name of a British officer Captain James Forsyth who travelled via this trek to discover pachmarhi. Captain Forsyth was in search for a summer destination for British officer of central India and his memoire back then in 1861 is described in his book "Highlands of Central India". Multiple crossing of river Denwa, view of Pachmarhi hills, large diversity of flora & fauna etc make this place a must sort after trek of central India.”

The National Chambal Sanctuary was formed to protect this pristine river ecosystem, complete with its varied flora and avifauna. With its headquarters at Morena, M.P., the Chambal river which is mainstay for the entire wildlife of the sanctuary harbours a variety of aquatic life like the elusive Ganges River Dolphin, Crocodile (Muggar), Gharial (Gavella Gangeticus), Freshwater Turtles, River Otters and a various species of fishes. All of which can quite easily be seen by tourists within the sanctuary area, especially in the middle reaches in the downside of Rajghat Bridge on National Highway. The Crocodile Centre at Deori, Morena nearby is the only one of its kind in the entire state of Madhya Pradesh and has recently been opened to public. The centre helps breed and rehabilitate Crocodiles and Gharials in the Chambal. The river boasts of a population of over 200 Crocodiles and 1600 Gharials. Active efforts are now to protect the Ganges River Dolphins.”
